

# New York State DOT

We are excited to announce that the New York State Department of Transportation has accepted our product, the NMB Splice-Sleeve, for use on their projects. This addition appears in the Approved List on the Internet at <https://www.dot.ny.gov/divisions/engineering/technical-services/materials-bureau/materials-and-equipment> under the category "Reinforcing Steel" and description "Grouted Reinforcing Bar Splice Sleeves (709-15)" as shown below. The NMB Splice Sleeve system is the first and only grouted mechanical connector for reinforcing bar splices approved by the New York State DOT following an update on their testing system and new more stringent slip and fatigue criteria.
